

# Options by IBM: TrackPoint USB Space Saver Keyboard

## Overview

The TrackPoint® USB Space Saver Keyboard is a space-efficient, space-saving version of IBM's popular TrackPoint Keyboard. Only 14.5 inches wide, it is designed to use minimum desk space while offering maximum productivity with an integrated point device. The TrackPoint USB Space Saver Keyboard is an excellent match for:

- Rack mounted servers
- ThinkPad® docking stations
- Port replicators
- Other applications with space constraints

This keyboard features an integrated TrackPoint IV pointing stick used for cursor control, scrolling, and panning through programs.

## Key Prerequisites

- IBM-compatible desktop or ThinkPad notebook system (integrated TrackPoint IV will not work with non-IBM notebook systems)
- USB port

### **Planned Availability Date**

June 2001

## At a Glance

The TrackPoint USB Space Saver Keyboard features:

- Space saving design/small footprint (only 14.5 inches wide)
- TrackPoint IV pointing device
- Three cursor buttons located below the space bar
- 2-port USB Hub for attaching additional USB devices
- High-quality keys (same as IBM full-size keyboards)
- Stealth black color on a unique industrial design
- Drivers for Windows™ 98, Windows 2000, Windows Millennium (Me)

For technical support:

- Request technical information via the IBM Personal Systems Group (PSG) Web site at <http://www.ibm.com/pc/support> or IBM FaxBack (800-426-3395)
